INSTALLATION TILE	The method of installation should conform to BS5325. For details of subfloor preparation and a full guide to installation visit: www.heckmondwike-fb.co.uk. Before laying Night Sky, tiles should be allowed to condition for 24 hours at the expected temperature and humidity levels. Night Sky tiles should be laid rotationally, alternating the direction of the tiles through 90°.
ADHESIVE GUIDE	Use Tackifier F41 or Bostik Laybond Carpet Tile Tackifier.
MAINTENANCE	To achieve maximum life expectancy it is essential to initiate a maintenance schedule from the date of installation. A full guide to cleaning & maintenance is available at: www.heckmondwike-fb.co.uk

PLEASE NOTE: For technical reasons, as with all textile materials, it is not possible to colour match from different batches. Orders that need to colour match should be placed at the same time. Production may, therefore, show variations to the sample card. Fibre compositions of colours within ranges may vary. Heckmondwike reserves the right to change or modify product specifications without giving prior notice.
